

HDI Elastic type Covestro E402-90T E405-80T TSE-100

Product introduction:

Coating films with elasticity and excellent weather resistance can be obtained without adding plasticizers.

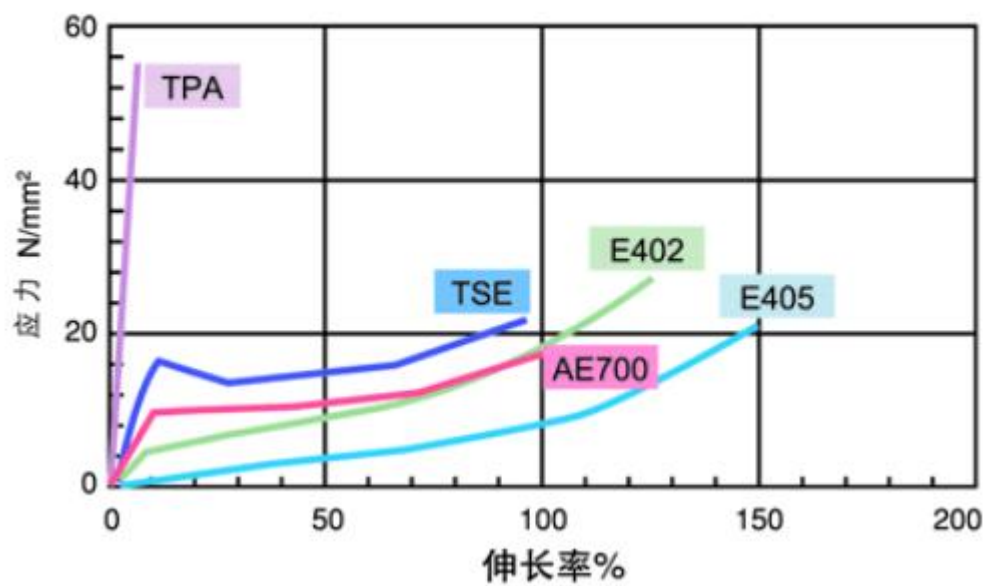

It is suitable for elastic substrates such as plastic, leather, rubber and other materials that require tensile properties.

DonadT M model	solid content wt%	NCO% wt%	Viscosity mPa·s/25°C	solvent	Features
E402-90 T	90	8.5	1200	Toluene	elasticity
E405-80 T	80	7.1	230	Toluene	low temperat ure elasticity
TSE-100	100	12.0	1650	--	Soluble in low polar solvents
AE700-1	100	11.9	800	--	low

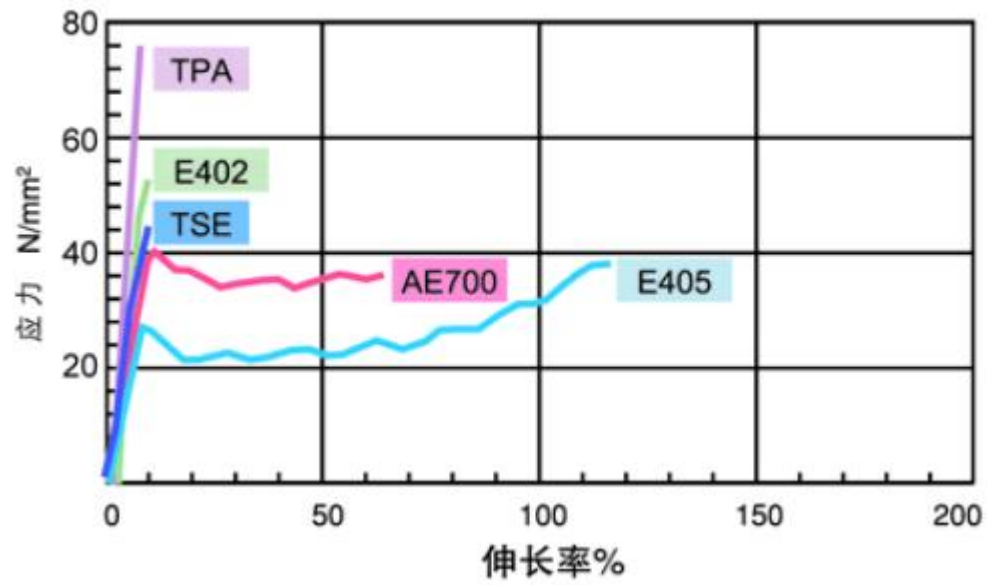

00					temperat ure elasticity Soluble in low polar solvents
----	--	--	--	--	--

* Please inquire about changing the dilution solvent

Tensile curve at 20°C

Stretching curve at -10°C
