

HDI Low Viscosity Vencorex HDT-LV

ABOUT:

[Tolonate™ HDT- LV](#) is a solvent free low viscosity aliphatic polyisocyanate, used to produce 2K high solids and solvent free polyurethane coatings with superior performance.

BENEFITS:

Adhesion,

Heat & humidity resistance,

VOC reduction,

Weathering Resistance

APPLICATIONS:

Coatings & Adhesives,

Adhesives for Battery,

Automotive OEM & refinish,

Construction,

Transportation

Storage and Transportation:

STORAGE: It is recommended to store in a dry and cool area with proper ventilation.

Packaging:

200KG/drum Please fasten the packaging cover as soon as possible after original packaging to prevent the mixing of other substances such as moisture and other substances that may affect the performance of the product. Do not inhale dust, avoid skin and mucous membrane contact. Smoking, eating and drinking are prohibited in the workplace. After work, shower and change clothes. Store contaminated clothes separately and reuse them after washing. Maintain good hygiene practices.
